Automated Material Handling & Part Feeding Systems

www.lipeautomation.com

Application News:

Green Part Handling

LOCATION: MN

OPERATION: Accumulation & Automated Oven Loading

PART: Green-Powdered Metal Bushing

RATE: 30ppm

CONTROLS: Integrated to Oven Feed

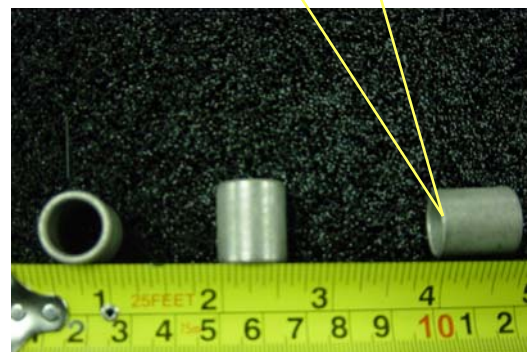

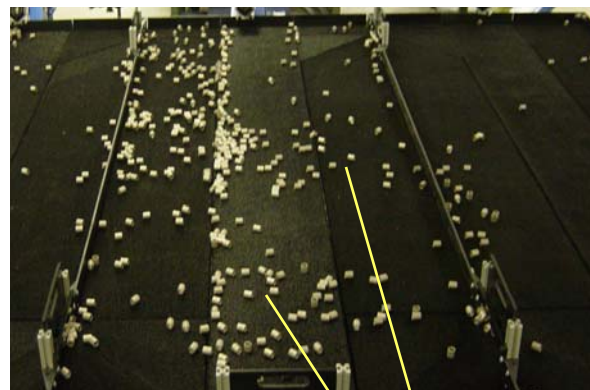

PARTS ENTER SYSTEM: Directly from (3) Press Operations

PARTS EXIT SYSTEM: Oriented to maximize oven belt part density.

REASON FOR AUTOMATION: In line accumulation of highly fragile parts. Improve efficiency, balance product flow to oven & reduce product yield loss.

SOLUTION:

Dyna-Slide 77 sq. ft accumulation system with custom automation to load oven belt
