

Standard Vibratory Conveyor

FEATURES :

- Modular, adaptable design
- Rugged - no moving parts
- UHMW side walls
- Durable steel base
- Fast with Multiple Drive Sizes
- Linear, Low Pressure Accumulation
- Table and floor mount available
- Engineering adaptations available
- Removable polypropylene brush allows for changes of part direction within single conveyor footprint.
- Curves are available

BENEFITS:

- Safe, Gentle Handling, Live Accumulation
- No pinch points, no moving parts
- Reliable & flexible
- Able to make turns & transfers
- Endures wet, harsh environments
- Quiet - reducing noise in the plant
- Fewer repairs yielding reduced maintenance costs
- Removes burrs and flash from unsintered parts reducing scrap rate

Other lengths can be accommodated.

Engineered side guides, tooling, escapements & assembly pallet stops area available.

Hand Crank Height adjusters are available.

Hand Crank Center Line adjusters are available.

Portable base with floor locks are available.

Multi Lane Dividers / Curve Guides

Merge Flow / Divide Flow / Direct Flow

Accumulation Sensors
