

Personal Care Products

- Lid Feeding & Accumulation
- Jar Orientation
- Cap Feeding
- Tray Loading & UnLoading
- Baby Products Handling
- Bath Products Handling
- Eye Makeup Products Handling
- Facial Makeup Products Handling
- Fragrance Products Handling
- Hair Care Products Handling
- Hair Dye and Hair Coloring Products
- Nail Products Handling
- Oral Care Products Handling
- Personal Cleanliness Products
- Shaving Products Handling
- Skin Care Products (Creams, Lotions, Powders, and Sprays)

Processes supported include: lid and jar orientation, accumulation, pack placement to

secondary operation, labeling, packaging, and quality control checking.

Dyna-Feed- Step Feeders

Less Wear and Tear on Parts, Less Noise Guaranteed

Dyna-Feed step feeders are used to orient and accumulate lids and jar caps to a secondary operation. The Dyna-Feed components are designed to feed product up a series of steps, then oriented and accumulated into a secondary operation. The wide belt drive the feeder for a steady flow of product. The Dyna-Feed step feeder is designed for long life and low maintenance. The Dyna-Feed step feeder is available for clean rooms up to class 1,000,000.

Benefits

Lower Lid Cap Costs
A wide belt conveyor gently feeds a bulk load of containers through a series of steps, then oriented and accumulated into a secondary operation.

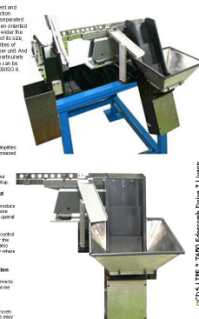

Feed a Wide Range of Part Sizes
The wide belt conveyor is available for a wide range of part sizes with 1/2" to 1 1/2" diameter.

Low Maintenance, Longer Lifetime and Quiet Operation
The wide belt conveyor is available for a wide range of part sizes with 1/2" to 1 1/2" diameter. The wide belt conveyor is available for a wide range of part sizes with 1/2" to 1 1/2" diameter.

Wide Range of Part Sizes
The wide belt conveyor is available for a wide range of part sizes with 1/2" to 1 1/2" diameter.

Low Profile Series
The wide belt conveyor is available for a wide range of part sizes with 1/2" to 1 1/2" diameter.

Bulk Mover Series
The wide belt conveyor is available for a wide range of part sizes with 1/2" to 1 1/2" diameter.

Dyna-Feed

Vibratory Bowl Part Feeding Solutions

Dyna-Feed is the manufacturer of Dyna-Feed Part Feeding and Accumulation Systems (DFAS). The Dyna-Feed vibratory bowl feeding system is used to orient and accumulate lids and jar caps to a secondary operation. The Dyna-Feed components are designed to feed product up a series of steps, then oriented and accumulated into a secondary operation. The wide belt drive the feeder for a steady flow of product. The Dyna-Feed step feeder is designed for long life and low maintenance. The Dyna-Feed step feeder is available for clean rooms up to class 1,000,000.

CDS LIPE is a manufacturer of industrial automation feeding and orientation components, equipment and systems. Our application engineering group has a team of experts. Allow us to provide you with a cost savings or reduce working conditions for your most labor-intensive applications. We are so confident in our professional services and the quality and performance of our products we are pleased to offer Dyna-Feed components, equipment and Dyna-Feed based automation processes with an 18-month warranty.

Flexible industrial solutions for automatically feeding parts, package or materials.

CDS LIPE - 7100 Dyna-Feed Drive - Lumpy

Dyna-Belt Line of Conveyors

Power Belt Series

Capacity: 1000 LBS
Effective Belt Width: 3" to 36"
OAL: 24" to 100"
Design Types: Modular, Wheel, Conveyer, Modular, Washdown Duty, Custom, Super Duty

Note: Belt Feeder Lines Based on Power Belt Series
Also: Curved conveyors are available as custom.

Power Belt is an industry leading conveyor. Low profile cost of ownership with a low to heavy duty life expectancy is supported on a direct drive belt in many applications.

Direct drive belt technology can be used to assist labor and wear bar, dock belt and modular chain conveyors.

Components are in stock.

Save energy, improve productivity by reducing operating costs and add to the life of your conveyor today. 800-448-7822

Reduce your project risk and cost, we manufacture the solution for your part, package and material handling problems allowing you to concentrate on your process.
